DETAILED ACTION

1. Applicant's amendment filed on 6/6/04, has overcome the 112 rejections listed in the last office action, dated 2/5/04.
2. Claims 2-3,9 have been cancelled by applicants' amendment filed on 6/6/04.

Allowable Subject Matter

3. Claims 1,4-8,10-26 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose nor teach the first electrically conductive surface of the barrier being formed of a layer of conductive metal, a barrier material opaque to electromagnetic radiation positioned between the conductive metal surface and the second surface, wherein one or more apertures having a width that is smaller than one wavelength passing through the material from the first surface through the barrier to the second surface, and wherein the barrier material confines the electronic excitation induced in the second surface to the portion of the second surface that is near each of the apertures, in combination with the remaining aspects of the independent claims. Since this aspect is not taught nor disclosed in the prior art of record, independent claims 1,14,21, and dependent claims 4-8,10-13,15-20,22-26, which also incorporate this aspect, are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
